The Garrett County Public School System is willing to seek a day care service provider to provide child-care at our school, if enough interest is generated in the community to support the program. It would be located at Grantsville Elementary School and would be available for parents before and after school. It would be a great service for our families.

In searching for a provider, we will be looking for someone who can accept toddlers, ages 2 and older. There would also be a discussion about operating the center during summer hours as well as snow days and scheduled days off from school to assist working parents with child care needs. Fee schedules would be shared with parents, when a provider is determined.

Please complete the information below and return it to Grantsville Elementary School. Your responses will determine if there is enough interest to move forward with the planning for this project. If you know someone in the area who is in need of day care and doesn’t have a child in our school, please share this information with them so they are aware of the possibility of this service. Once the surveys are returned, we will share additional information with you and how we plan to proceed. If you have questions regarding this process you may contact Nicole Miller at nicole.miller@garrettcountyschools.org.

Name ____________________________

[ ] I do not need day care services for my child(ren).
[ ] I am interested in day care services for my child(ren) at Grantsville Elementary School.

Ages ____________________________

I would need services: [ ] before school
[ ] after school
[ ] during school (toddlers)
