PREFACE

The purpose of this handbook is to outline the rights and responsibilities of students within the Garrett County Public School System. With these rights and responsibilities in mind, the Garrett County Board of Education has authorized interventions and supports, responses, consequences and disciplinary procedures. A grievance procedure has been established for students who feel that their rights have been violated in regard to a county policy.

Action taken by school authorities shall be free from bias on the basis of race, color, gender, age, national origin, religion, disability, genetic information, sexual orientation, or gender identity.

The information and procedures in this document are guidelines for all schools; however, there is a recognized distinction among students of differing ages, maturity, and disabilities. School personnel may take these developmental differences into consideration when administering this document. Each local school shall develop policies to govern the school consistent with this handbook, other Garrett County Board of Education policies, and state and federal laws.

Revisions to the 2019-2020 Student Handbook appear in bold type

WE, THE COMMITTEE MEMBERS FOR THE REVISION OF THE STUDENT'S RIGHTS AND RESPONSIBILITIES HANDBOOK, ENCOURAGE EACH PARENT TO REVIEW THIS HANDBOOK WITH THEIR CHILD/ CHILDREN SO THAT BOTH PARENTS AND STUDENTS ARE AWARE OF THE STUDENT'S RIGHTS AND RESPONSIBILITIES AS IS REQUIRED BY THE MARYLAND STATE DEPARTMENT OF EDUCATION.

I. ATTENDANCE

A. Philosophy and Rationale of Attendance

We believe that education is a continuum which spans an individual's life.

We believe that the major responsibility of the school is to develop each individual's intellectual capacity to its maximum.

We believe students must attend school and all classes regularly and be punctual because there is a direct relationship between regular attendance and academic achievement and completion of a school program.

We believe that regular attendance and punctuality in school:

- Fosters the universal value of education as a means of fulfilling individual and social needs.
- Facilitates the continuity of classroom instruction and participation.
- Provides students the opportunity to use their own abilities and talents.
- Helps students develop the habits of responsibility, self-discipline and good work habits.
- Helps to develop close communication and cooperation between the home, school and community.
- Helps to develop a more positive school climate.
- Enhances the students' potential to complete their high school education and become productive members of society.

We believe that each student has the responsibility to monitor his/her attendance and to be informed about the policy and the consequences of the policy.

We believe that each parent/guardian has the responsibility to monitor his/her students' attendance and to be informed about the policy and the consequences of the policy.

B. Legal Foundations

The legal foundations for this policy and its accompanying procedures are found in Maryland State Law and By-Law as follows:

7-103 Required school days and holidays

7-301 Compulsory Attendance Law*

7-302 Report of Absences and Maladjustment

7-304 Special Programs for Disruptive Students

7-305 Suspension and Expulsion

3-804 Jurisdiction of the Courts

C. Standards

1. Attendance

Each child who resides in this state and is 5 years old or older and under 18 shall attend a public school regularly during the entire school year unless the child is otherwise receiving regular, thorough instruction during the school year in the studies usually taught in the public schools to children of the same age or has received a one-year maturity waiver for kindergarten.

The Garrett County Public School System provides a full-day kindergarten for children who reach the age of five in conformance with the following guidelines to attend kindergarten:

2019-2020: September 2, 2013 through September 1, 2014

The Garrett County Public School System provides a Pre-Kindergarten Program at certain designated sites. A child must be four years old in conformance with the following guidelines in the year in which he/ she applies for entrance into the Pre-Kindergarten program:

2019-2020: September 2, 2014 through September 1, 2015

Children who reside in the school's attendance area are given first priority. Enrollment is based on MSDE student selection criteria.

2. School Attendance: Days Attending/Absent

- a. A student is counted present for a full day if a student is absent no more than one hour of the school day.

Example: A student arrives at the school's designated arrival time, leaves for an appointment at 10:15, returns at 11:15 and remains in school until dismissal time.

- b. A student is counted absent for a full day if the student is present for less than two hours of the school day.

Example: A student arrives at 10:15 and leaves at 12:00 noon.

- c. A student will be credited with ½ day attendance if the student is in attendance for two hours or more of the school day and is absent for more than one hour of the school day.

Example: A student arrives at 10:15 and leaves at 12:15.

- d. Students shall be considered in attendance at school when participating in school-sponsored activities during the school day, and when that participation is approved by the local superintendent of schools or the school principal, or their designee.

3. Class Attendance:

- a. At the high school level, credit is awarded for individual classes. Attendance is recorded by class period as a requirement to earn credit in each class. A student who is in attendance in school for half or more of a scheduled class period will be counted as present. If they are in attendance in school for less than half of the class period they will be counted as absent for that class.

Example: A high school student is scheduled for an 80 minute class period. If the student is in attendance for 40 or more minutes, he/she is counted present for the entire period. If he/she is in attendance for 39 or less minutes, he/she is counted absent for the entire period.

Note: A student may be counted as being in school attendance at the high school level, while not being in a specific class sufficient time to be counted as present for that class.

Example: A student arrives at 10:15, attends an 80 minute class, lunch and 30 minutes of an 80 minute class, and then leaves at 12:15. They would be counted present for a half of a school day, but only receive credit for attendance in one class.

- b. A senior student who is on a modified schedule and is in attendance for half or more of a class period for their scheduled class(es) will be counted as present for the full day. A senior student who is on a modified schedule and is in attendance for less than half of a class period for their scheduled class(es) will be counted absent.

4. Tardiness/Early Dismissal

Any student who arrives at school after the appointed starting time and does not meet the definition of a half-day absence must be marked tardy. If the student is late as a result of a bus delay, the student should not be considered tardy. A student should not be habitually removed from school before the instructional day has been concluded, and must have a bona fide excuse to be removed from school early. A student who is habitually tardy/dismissed early will be considered in violation of the Maryland compulsory school attendance law. A student shall be considered habitually tardy when he/she is late more than four (4) times per semester without a bona fide excuse as determined by the principal or his/her designee. These statements shall not be interpreted as limiting the authority of the school administration to develop and implement

disciplinary measures to encourage promptness to school/class, to deter tardiness to school/class and to discourage habitual early dismissals which disrupt the student's school day.

D. Rules and Procedures

1. Lawful Excuses

- a. Death in the Immediate Family—The immediate family shall include parents, siblings, grandparents, great grandparents or other persons who regularly reside in the household. Sometimes, due to family and personal circumstances, the definition of “immediate family” must be modified. The principal (or designee) shall make the determination. (Code 01)
- b. Illness—Any illness which exceeds five (5) consecutive days will require a Doctor's certificate. All absences due to pregnancy or parenting related conditions including absences for labor, delivery, recovery, and prenatal and postnatal medical appointments will be excused. (Code 02)
Illness—Any illness which results in less than or equal to five (5) days of absences may be certified by the parents/guardians. (Code 03)
Any student who sees a doctor/dentist/psychologist for an illness which results in absences of less than five (5) days should secure doctor's certificate as precautionary measure.
- c. Court Summons—Certified by the court, Juvenile Justice or lawyer, or Department of Social Services/caseworker. A pregnant or parenting student will be excused for any absence due to a legal appointment related to family law proceedings, including adoption, custody, and visitation. (Code 04)
- d. Hazardous Weather Conditions - Hazardous weather conditions shall be interpreted to mean weather conditions which would endanger the health or safety of the student when in transit to and from school. (Code 07)
- e. Work—Approved or sponsored by the school, the local school system, or the State Department of Education, accepted by the local superintendent of schools or the school principal as reason for excusing students. (Code 08)
- f. Observance of a Religious Holiday—Must be certified by the parent. (Code 09)
- g. State Emergency—Certified by the Superintendent of Schools. (Code 10)
- h. Suspension—Certified by the principal. (Code 18)
- i. Lack of Authorized Transportation—This shall not include students denied authorized transportation for disciplinary reasons. (Code 19)
- j. Other Emergency or Set of Circumstances which, in the judgment of the superintendent or designee, constitutes a good and sufficient cause for absence from school. For circumstances which are not emergencies, the student must have prior approval from the principal or designee. Absences under this category shall not exceed five (5) days. (Code 13)
Absences under this code will be determined by the principal in consultation with other school staff, teachers and administrators. Factors such as prior attendance and absences, grades and academic performance, school discipline, exams and state-mandated testing schedule, and the reason/cause for absence will be considered in the response to the request. Students,

including pregnant or parenting students will have the opportunity to make up work missed due to lawful absences and will receive credit for this work. A student absence due to a student's pregnancy or parenting needs is a lawful absence for up to 10 days of excused absence after the birth of a student's child. Parenting related absences due to illness or a medical appointment of the student's child will be excused, including up to four days of absences per school year for which a note from a physician may not be required. Absences not granted under this code would be coded as unlawful absences (truancy).

- k. Health Exclusion (Code 17)
2. Unlawful Excuses
- a. Truancy—A truant is a student (age 5 through 21) who is absent, for a school day or portion thereof, without lawful cause or an absence for which a note has not been submitted. Truancy is not an absence which is coded Unlawful Other. (Code 20)
 - b. Unlawful Other—Is an absence, including absence for any portion of the school day, for any reason, except those cited as Lawful or truancy. Any absence over the limits set in any of the lawful categories shall be considered in this category, including absences attributed to illness and for which a doctor's note has been required and is not submitted. (Code 21)
3. School approved educational activities

Students may be counted as in attendance at school when, in the judgment of the school administrator or their designee, a student is attending a school approved educational activity. Students must obtain prior approval and will have the opportunity and responsibility to make-up work missed and to receive credit for that work.

Students who are on a school approved field trip must be listed on the required Field Trip form(s). Students (siblings, student relatives etc.) who are not direct participants with the group or activity are not to be approved or listed as participants on the field trip. Those students who are not participants of the approved field trip but whose parent(s) / guardian(s) want them to attend and who are arranging their own transportation for their child may request a Code 13 absence, to be determined by the principal of the student's school based on the Code 13 requirements. Approval of a Code 13 absence does not indicate that the student is a participant with the approved field trip. An absence without approval would be coded as an unlawful absence.

E. Attendance Procedures

Each school shall record and report attendance and absence using the school-based computerized record keeping system.

1. Absences

- a. Notes must be submitted no more than three (3) school days after the student's return to school. The principal, in extreme emergency situations, may waive the three-day limit. The note shall state the reason for the student's absence, the date(s) of the absences, and be signed and dated by the student's parent/ guardian.
- b. It will be the student's responsibility to obtain and complete work missed due to absence regardless of code. However, work/assignments missed as a result of unlawful absences will not be given credit.
- c. Assignments that were given prior to the student's absence, and due prior to or on the first day that the student returns to school, will be due on the first day that a student returns to school. Assignments that were given during the student's absence will have a time limit of a two-day make-up per day of absence, due in the sequence in which the assignments were given, in order to receive credit. The assignment from the first day of absence will be due two days after the student's return. Additional assignments will continue to be due in a two day sequence based upon the date of that assignment. Students who appear to be abusing this procedure shall be reported to the school administration for investigation. A pregnant or parenting student who has been absent from school due to pregnancy or parenting, or a legal appointment involving the pregnant or parenting student related to family law proceedings may have the above amount of time to make up the missed work. A pregnant or parenting student may receive home and hospital instruction upon the request of their physician when it is indicated that they are unable to attend school due to medical reasons. In addition, the student may be allowed to make up the missed work as noted above, or may choose to as an alternative to make up the missed work by retaking a semester, participating in an online course credit recovery program, or have six weeks to continue at the same pace and finish at a later date.
- d. Whenever possible, the student shall be permitted to complete homework in advance of planned absence (i.e.: when using "Other Emergency or Set of Circumstances" code).

2. Monitoring Procedures

- a. Parents of students shall be informed on a regular basis by progress reports and/or report cards of the student absentee record. Parents may also be notified through means such as parent notes, teacher notes in student planners and telephone calls. The school administration will notify parents when a student accumulates a total of eight (8) days of absences for elementary, middle and high school year- long classes or four (4) days for high school semester classes. The school administration shall also notify the school's Pupil Personnel Worker.
- b. An investigation shall be conducted by the appropriate school staff and/or referred to the Pupil Personnel Worker for any student whose total absences for illness exceed eight (8) days for elementary, middle and high school yearlong classes or four (4) days for high school

semester classes. If the investigation reveals questionable absences (Code 03, 20, 21, 22), the parent will be required to subsequently furnish a doctor's certificate for absences. If this course of action becomes a requirement, any subsequent absence for illness without a doctor's certificate would be listed under the unlawful category. This procedure will remain in effect for the remainder of the school year.

c. Unlawful absences

Student absences will be specifically monitored for unlawful excuses (refer to D.2.a-c, Codes 20, 21, and 22). Parents will be notified when a student accumulates a total of three (3) unlawful absences for elementary, middle and high school yearlong classes or two (2) days of unlawful absences for high school semester classes. The school administration will also notify the School's Pupil Personnel Worker. Students will be referred to the Pupil Services Office for investigation and case management when the student accumulates four (4) unlawful absences for elementary, middle and high school year long classes or three (3) days of unlawful absences for high school semester classes. This referral will include documentation by the school administration of parent notification and a parent conference or other face-to-face parent contact (home visit, etc.), or documented attempts of these contacts.

d. Each schools Pupil Services Team will regularly monitor those students whose absences, both lawful and unlawful, are impacting their instruction and promotion to the next grade. Interventions and strategies to address attendance concerns will be addressed and documented by the school and Pupil Services Team using tiered interventions of Response to Intervention (RTI).

The following steps will be initiated to address the attendance concerns:

- 1) Student conference
- 2) School staff contact with parent/guardian
- 3) School conference with the parent and student
- 4) Individual and/or group counseling
- 5) Scheduled intervention periods/assigned classes to support missed instruction and academic deficits
- 6) Written school notification to parent/guardian when the student has three (3) unlawful absences, or eight (8) total absences for year-long classes or two (2) unlawful or four (4) total absences for semester classes (high school).
- 7) School notification of the Pupil Personnel Worker when the student has four (4) unlawful or eight (8) total absences for year-long classes or three (3) unlawful or four (4) total absences for semester classes (high school).
- 8) Scheduled school conference with the Pupil Personnel Worker, School Social Worker, and/or involved school staff which may include the teacher, school administrator, CTE Case Manager-Drop-out Prevention Specialist (high school), School Nurse, School Psychologist, School Counselor, community agency staff, and the parent/guardian and student.

- 9) Pupil Personnel Worker in conjunction with the school administration may determine to require doctor notes for any additional excused absences for illness.
- 10) Additional scheduled school conferences with the above staff, parents/guardians and student. If parent/guardian and student conferences have not been attended by the parent/guardian, phone contacts, and/or home visits with referrals to agencies to provide resources for the parents/guardians and student will be recommended and documented.
- 11) If a home visit has not been completed, one will be done by the Pupil Personnel Worker, School Social Worker and/or the CTE Case Manager-Drop-out Prevention Specialist (high school) and/or other school staff.
- 12) If the above interventions have not been successful, the Pupil Personnel Worker will complete a referral that documents the above interventions to the State's Attorney's Office for possible court action for those students under the compulsory attendance age who have exceeded the number of unlawful absences. Copies of the referral will also be sent to the Departments of Juvenile Services and Social Services.

3. Promotion/Retention

Any student whose total numbers of absences exceeds sixteen (16) days for elementary, middle and high school yearlong classes or eight (8) days of absences for high school semester classes shall not be promoted or shall lose credit in those classes. Any student whose total number of unlawful absences exceeds eight (8) days in elementary, middle or high school yearlong classes or four (4) days in high school semester classes shall not be promoted or shall lose credit in those classes.

The affected student and his/her parent/guardian may appeal this ruling to the local school attendance committee. If the student and parent can show good and acceptable cause, the committee may override the loss of credit or retention.

The above procedures will be applied in accordance with the Promotion/Retention policy and procedure (IKE).

4. Partial Year Enrollment

This attendance policy also shall apply to any student who registers after the start of the school year. The number of days mentioned shall be prorated depending upon the date enrollment takes place. A student's days shall be prorated according to the following formula:

- a) Excused Absences:

1) Yearlong:

$$\frac{(180 \text{ days} - \text{Number of Days Not Belonging}) \times 16}{180}$$

2) High School Semester Classes:

$$\frac{(90 \text{ days} - \text{Number of Days Not Belonging}) \times 8}{90}$$

b) Unexcused Absences:

1) Yearlong:

$$\frac{(180 \text{ days} - \text{Number of Days Not Belonging}) \times 8}{180}$$

2) High School Semester Classes:

$$\frac{(90 \text{ days} - \text{Number of Days Not Belonging}) \times 4}{90}$$

F. Habitual Truant

1. Following investigation, documented parent notification and case management by the Pupil Services Office, a student and his/her parents may be referred to the Department of Juvenile Services, the States Attorney's Office and/or the Department of Social Services for habitual truancy. The referral will be made through the school's Pupil Personnel Worker and approved by the Supervisor of Pupil Services when a student, under age 18*, is unlawfully absent from school for a number of days or portion of days in excess of five (5) days for elementary, middle and high school yearlong classes or three (3) days for high school semester classes.
2. A student who is 18* years or older who is unlawfully absent from school for a number of days or portion of days in excess of five (5) days for yearlong classes or three (3) days for high school semester classes may be referred contingent upon court-ordered requirements for attendance.
3. Following investigation and attendance procedures (E.l.b.2) students and their parents may be referred to the Department of Juvenile Services, the State's Attorney's office and/or the Department of Social Services for unlawful absences in excess of sixteen (16) days for which no lawful excuse has been accepted. Upon referral to the Pupil Personnel Worker, absences due to illness that are verified by a parent note will be investigated. If it is determined that these absences are questionable, the parent will be notified by the Pupil Personnel Worker that any further absences due to illness must be verified by a doctor's note. Following documented notification, parent notes for illness will no longer be accepted and any of these absences will then be coded as truancy.

G. Information Dissemination

Information regarding the attendance and discipline policy and procedures shall be distributed at the beginning of the school year to each student.

Each school shall include the attendance policy and procedure information in the

school's student information packet which is given annually to each student. A class discussion concerning the attendance and discipline policy and procedural information shall occur in each classroom at the beginning of the school year.

Each school shall notify parents of the attendance and discipline policy and procedural information at the beginning of each school year. This may be done through the school newsletter and by sending the handbook home with an acknowledgement form to be signed and returned.

In addition, each student who is new to the Garrett County Public Schools shall receive a copy of the Handbook at the time of his/her registration.

H. Appeals Process

A student and his/her parent/guardian may appeal the loss of credit or retention as a result of missing a total number of absences in excess of sixteen (16) lawful or eight (8) unlawful days in elementary, middle and high school yearlong classes or eight (8) lawful or four (4) unlawful days for semester classes (high school) to a local school attendance committee.

The request for an appeal of a student's loss of credit or retention due to attendance should be made within fourteen (14) calendar days of the written notification that the student has lost credit or has been retained. The parent and student will be notified of the time and date of the appeal, and have the right to attend the appeal conference. The decision of the attendance appeals committee is final unless policy or procedure is violated or misinterpreted. (Refer to Grievance Process on Page 45.) The appeal committee will address and consider the student's level of mastery of the academic content and skills impacted by their absences, as well as the circumstances of their absences. The voting members for the attendance committee will consist of certificated personnel and will involve the Pupil Personnel Worker and staff directly involved with the student, such as the School Social Worker, School Nurse, School Psychologist, School Counselor, CTE Case Managers, Special Education teachers, etc.

I. Reward Process

These regulations assign schools many new responsibilities. Our program for fulfilling these responsibilities is outlined in our asbestos management plan. Employees of the school system are also required to report the incident to the principal of the child's school. Those reporting in good faith are immune from any civil liability or criminal penalty. (See Garrett County Board of Education Policy 474.23 and 474.231). Forms may be obtained from the school office.

The law defines child abuse as "the physical or mental injury of a child by any parent or other person who has permanent or temporary custody or responsibility for supervision of a child, or by any household or family member, under circumstances that indicate that the child's health or welfare is harmed or at a substantial risk of being harmed; or sexual abuse of a child, including molestation, whether physical injuries are sustained or not."

Mental injury "means the observable, identifiable, and substantial impairment of a child's mental or psychological ability to function."

Department of Human Resources regulations require that the identity of the person reporting a case of suspected child abuse and/or neglect shall not be revealed. All persons are required by the law to protect the identity of the person reporting. Only a court order can allow disclosure of the person's name who is reporting. The school cannot provide a parent with the name of who has reported suspected child abuse and/or neglect.

 6. The local school system shall record, collect, and report student arrests and referrals to law enforcement agencies or to the juvenile justice system as required by the State Department of Education.

H. Reportable Offenses

If a child enrolled in the public school system is arrested for a reportable offense, the law enforcement agency making the arrest shall notify the local superintendent or designee of the arrest and the charges within 24 hours of the arrest or as soon as possible. Upon receipt of information from a law enforcement agency of an arrest of a student for a reportable offense, the local superintendent or designee shall provide the principal of a school in which the student is enrolled with the arrest information, including the charges.

For a student with disabilities enrolled by the public school in a nonpublic school program, this includes providing that information to the principal of that school.

The school principal or designee with appropriate staff and invitation to parent/guardian to participate as non-voting members shall develop a plan to address appropriate educational programming and related services for the student that maintains a safe and secure school environment. If the plan results in a change to the student's educational program, the school principal or designee will schedule a conference to inform the parent and will implement the plan no later than 5 school days after the receipt of the arrest information. Appropriate educational programming and services shall be provided to an identified student with disabilities in accordance with Disabilities Educational Act and State special education law and regulations (COMAR 13A.05.01). Minimally or on quarterly basis or immediately upon notification from the States Attorney of the disposition of the reportable offense or if the case is dismissed, found not guilty or pled to a lesser, non-reportable offense, the principal or designee shall review the plan and make adjustments as appropriate and inform the parents or guardians of any adjustments to the plan.

The local superintendent and the school principal shall consider prohibiting a student who is arrested for reportable offense involving rape or sexual offenses from attending the same school or riding the same school bus as the alleged victim of the reportable offense. The student who is convicted of or adjudicated delinquent for rape or sexual offense may not attend the same school or ride the same bus as the victim.

The local superintendent or the school principal may transmit the obtained information of the student for whom the criminal charge or delinquency petition is

still pending, or for whom the disposition of the reportable offense was a conviction or adjudication of delinquency as a confidential file to the local superintendent of another public school system or non-public school in the State in which the student has enrolled or been transferred. This transmittal shall include any educational programming and related services provided to the student. Notice of the reportable offense charge alone may not be the basis for suspension or expulsion, though the school is not limited in the lawful use of the obtained information. The obtained information shall be destroyed if the case is dismissed, if the student is found not guilty, pleads to a lesser non-reportable offense, graduates or turns 22 years old.

Reportable offense is defined as a crime of violence as defined in the following

Codes and Law; Annotated Code 3-8A-03(d) (4), and Criminal Law 3-203, 4-101, 4-102, 4-203, 4-204, 4-503, 5-602 through 5-609, 5-612 through 5-614, 5-617, 5-618, 5-627, 5-628, 6-102, 6-103 through 6-105, 6-301, 7-105, 9-302, 9-303), 9-305, 9-504, 9-505, 9-802, 9-803), 14-101. (Annotated Code of Maryland 7-303, COMAR 13A.08.01.17, School Safety Act of 1999, Safe School Act of 2010)

I. Financial Obligations

Each student and their parent/guardian shall be financially responsible for repairing or replacing school property that is damaged or lost. Privileges may be revoked by the school administrator, as appropriate, pending restitution or replacement. Failure to make restitution may result in a referral to Juvenile Services and/or the State Attorney's Office for possible court action.

VI. DISCIPLINARY MEASURES

The Every Student Succeeds Act (ESSA) requires that schools address school climate and respond to behavior and discipline, as well as academic instruction by using a Multi-Tiered Systems of Support (MTSS) model. Accordingly, the Garrett County Public Schools have made a commitment to implement the Positive Behavior Intervention and Supports program (PBIS) and behavioral Response to Intervention (RTI) tiered strategies and interventions to address these requirements. Implementing these programs will pro-actively address school climate and student behavior and discipline. Tier-based intervention will be used to address and remediate student behavior. Each school has established trained PBIS teams who have developed behavioral expectations for their schools. These teams meet on a regular basis to review school data and strategies to address student behavior and discipline. Annual evaluations provide each school with an assessment of their progress with PBIS. Schools will also be using a School-wide Information System (SWIS) to collect and analyze specific discipline data. Review of the SWIS discipline data, in conjunction with the annual progress evaluation will enable each school to focus on specific discipline concerns that can be addressed with planned interventions and strategies.

A. Level I: Classroom Procedures

A good classroom environment is developed through teaching of classroom rules to students and the student's cooperation with the teacher to prevent potential behavioral problems. The implementation of school-wide Multi-Tiered Systems of Support (MTSS) and positive behavioral interventions has been established as part of a pro-active program in each school. Students who repeatedly demonstrate misbehavior while having preventative, pro-active universal strategies provided in the classroom will be provided with behavioral response to intervention (RTI) process and strategies to identify, intervene and correct the inappropriate behavior.

1. When the classroom rules have been posted, and clearly and positively stated and the student's behavior continues to be disruptive after the teacher has called attention to the behavior, the teacher shall use the following corrective measures when appropriate:
 - a. Student/teacher communication both verbal and/or non-verbal
 - b. Reassignment of classroom seating,
 - c. In-classroom time out
 - d. Withholding of certain privileges,
 - e. Parent contact,
 - f. Temporary removal from the classroom to another supervised area, (i.e.: time out, alternative structure classroom)
 - g. Parent/teacher conference,
 - h. Implementation of Response to Intervention (RTI) process and strategies
 - i. Referral to office and/or counselor.
2. Among those measures a teacher will not use are:
 - a. corporal punishment,

- b. use of unreasonable or irrelevant make-up work,
- c. isolation of the student outside the classroom,
- d. use of profanity or degrading remarks,
- e. responses that would constitute bullying, harassment or intimidation of the student
- f. intentional embarrassment of the student
- g. other responses that disregard the basic rights of the student.

B. Level II: Administrative Procedures
Code (13A.08.01.11 of Maryland State Board of Education)

The school principal has the ultimate responsibility for maintaining an effective school learning environment. As such, in matters of student discipline, the principal will exercise his/her authority in determining the ultimate course(s) of action. The administrator shall confer with the teacher who referred the student to the administrator prior to returning the student to that teacher's classroom. (Confer is defined as a discussion or dialogue by any means where the views of the teacher are communicated and considered.) The school administrator may also institute the following steps:

1. Hold a conference with the student.
2. Discuss the problem with the parent and/or student and/or teacher(s) in an attempt to establish a more positive adjustment.
 - a. Behavioral probation/contract
 - b. Loss of privileges
 - c. Peer mediation
3. Consult with and utilize appropriate staff and ancillary support personnel.
4. Revise student's educational programs when appropriate.
5. If not previously done, initiate the Response to Intervention process to identify specific behavior and interventions to remediate the misbehavior through a tiered intervention process.
6. Review current behavioral RTI interventions and revise or implement additional interventions.
7. Provide for re-teaching of specific social-emotional learning skills.
8. Make referrals to the Pupil Services Team for review and implementation of identified Tier II interventions. These may include behavioral, counseling and psychological services and interventions, including restorative practices or counseling programs and referrals for other services and support, including the Maryland Student Assistance Program or other agency and community resources not previously implemented.
9. At Tier III of behavioral RTI, conduct a Functional Behavior Assessment and implement a Behavior Intervention Plan.
10. Remove temporarily (up to an hour) without academic penalty from the regular school program to the time-out center, detention center, or intervention classroom where student instruction will continue.
11. Provide in-school removal/intervention. In-school suspension involves removing a student within the school building from the student's current educational program for up to but not more than 10 school days in a school year for disciplinary reasons by the school principal. An in-school removal (in-school intervention) is not considered a day of suspension as long as the student is afforded the opportunity to:
 - a. appropriately progress in the general curriculum
 - b. receive the special education and related services specified on the student's IEP, if the student is a student with a disability in accordance with COMAR 13A.05.01*
 - c. receive instruction commensurate with the program afforded to the student in the regular classroom, and
 - d. participate with peers as they would in their current educational program to the extent appropriate. (COMAR 13A.08.01.11) Live-streaming of instruction may be utilized to enable the student to receive instruction commensurate with that of their regular classroom.

*If the assignment exceeds 10 consecutive days for a special education student, it represents a change in placement which must be approved by the IEP committee and indicated on the student's IEP.

If the above requirements (a-d above under IV.B.11) are not being met for a student, then assignment to an alternate classroom setting would represent an in-school suspension rather than an intervention.

12. The school administrator may review and utilize behavioral interventions based on the RTI Tier at which the student is placed, utilize social-emotional skills remedial learning, and/or use restorative justice practices to prevent suspension, or in lieu of suspension. This may also be used in conjunction with in-school intervention and/or an in or out of school suspension.
13. Suspension - The principal/building administrator must approve for an in-school, short-term or, long-term suspension. The superintendent or superintendent's designee must approve for an extended suspension. Specific definitions and requirements are addressed under the Guidelines for Suspension (VI. C. 2).
14. Recommend attendance in a counseling/rehabilitation program.
15. Report to legal authorities.
16. Assign to an alternate intervention learning program (see #11 above) when appropriate.
17. Recommend expulsion. Expulsion is the exclusion of the student from the student's regular school program for 45 days or longer, which may only occur under the following circumstances:
The principal shall invoke an out-of-school suspension of 10 days and a recommendation for expulsion for any student (Pre-Kindergarten – 12th grade) in possession of a firearm (NCLB Act of 2001, Section 4141 ESEA; COMAR 13.A.08.01.12-1), or

Expulsion may be recommended for other disciplinary offenses when:

- a. The superintendent or the designated representative has determined that the student's return to school prior to the completion of the expulsion period would pose an imminent threat of serious harm to other students or staff; and
- b. This is substantiated by the completion of a threat assessment by a school psychologist including a review of behavioral response to intervention.
- c. The superintendent or designated representative limits the duration of the expulsion to the shortest time period practicable; and

2. Guidelines for Suspension and Expulsion

(Code 13A.08.01.11 of Maryland State Board of Education, Annotated Code of Maryland 7-305 and 7-310)

- a. Suspension is considered one of the most serious outcomes for disciplinary offenses. It should be invoked when the behavior is serious enough to warrant the removal of the student from the student's regular school program, and when the Garrett County Discipline Policy provides for suspension, due to cases in which the student engages in chronic and extreme disruption of the educational process that has created a substantial barrier to learning for other students, across the school day, or when the student poses an imminent threat of serious harm to other students or staff. School administrators must consider factors such as developmental differences of age and maturity, and disability as mandated by state and federal regulations to modify the suspension, or the number of days of suspension required by these procedures.

Prior to the use of suspension, review of other interventions, including the use of tiered behavioral response to intervention (RTI) strategies implemented to address student behavior and discipline will occur. Restorative justice practices, re-teaching of social-emotional skills, functional behavior assessments and behavior intervention plans, counseling interventions and referral to Pupil Services Teams are various interventions that should be reviewed and implemented. In lieu of in or out-of-school suspension, school administrators may utilize assignment to in-school intervention and the live-streaming of instruction to meet the four requirements for intervention as noted below:

Provide in-school removal/intervention. In-school suspension involves removing a student within the school building from the student's current educational program for up to but not more than 10 school days in a school year for disciplinary reasons by the school principal. An in-school removal (in-school intervention) is not considered a day of suspension as long as the student is afforded the opportunity to:

- 1) appropriately progress in the general curriculum,
- 2) receive the special education and related services specified on the student's IEP; if the student is a student with a disability in accordance with COMAR 13A.05.01*
- 3) receive instruction commensurate with the program afforded to the student in the regular classroom, and
- 4) participate with peers as they would in their current educational program to the extent appropriate. (COMAR 13A.08.01.11) Live-streaming of instruction may be utilized to enable the student to receive instruction commensurate with that of their regular classroom.

*Students who are under an IEP or 504 plan must have their plan reviewed by the IEP team who would determine that the student's needs can be met in an in-school Intervention Program as noted above (#2) and that the removal is not a change in placement.

If the above requirements (1-4 above under 2.a.) are not being met for a student, then assignment to an alternate classroom setting would represent an in-school suspension rather than an intervention.

- b. The principal/building administrator must approve for an in-school, short-term or long-term suspension. The superintendent or superintendent's designee must approve for an extended suspension:
 - 1) Suspension means the application of in-school suspension, short-term suspension, long-term suspension, or an extended suspension.
 - 2) In-school suspension — means the exclusion within the school building of a student from their regular education program for up to but not more than 10 days per school year for disciplinary reasons by the school principal. The student is required to complete all school assignments.
 - 3) Short-term suspension means the removal of a student from for up to but not more than 3 school days for disciplinary reasons by the school principal.
 - 4) Long-term suspension means the removal of a student from school for a time period between 4 and 10 school days in a school year for disciplinary reasons by the principal.
 - 5) Out-of-School suspension — student is removed from regular school program and marked as an excused absence from school, and they are permitted to make up the work.
 - 6) Extended suspension means the exclusion of a student from a student's regular program for a time period between 11 and 45 school days, which only may occur under the following circumstances when the superintendent or designated representative has determined that:
 - a) The student's return to school prior to the completion of the suspension period would pose an imminent threat of serious harm to other students or staff (This would be substantiated by the completion of a threat assessment by a school psychologist including a review of behavioral Response to Intervention); or
 - b) The student has engaged in chronic and extreme disruption of the educational process that has created a substantial barrier to learning for other students across the school day, and other available and appropriate behavioral and disciplinary interventions have been exhausted.
 - c) When a request is made for an extended suspension of a student for chronic and extreme disruptive behavior, the principal will follow the GCPS guidelines for behavioral Response to Intervention (RTI). The request will include documentation of implementation of tiered evidenced-based behavioral Response to Intervention. This will include documentation that interventions were provided through referral to the Pupil Services Team (Tier II) and that a Behavior Intervention Plan (BIP) was implemented with fidelity, reviewed and updated as needed (Tier III). This process is to insure that the specified criteria that "other available and appropriate behavioral and disciplinary interventions have been exhausted" has been met (COMAR 13A.08.01.11).

- d) The superintendent or designated representative limits the duration of the exclusion to the shortest period practicable; and
 - e) The school system provides the excluded student with comparable educational services and appropriate behavioral support services to promote successful return to the student's regular academic program.
- 7) Educational Services. In order to establish accountability and keep suspended or expelled students on track with classroom work, as is reasonably possible, each local board shall institute education services that at a minimum provide that:
- a) Each student suspended or expelled out-of-school who is not placed in an alternative education program shall receive daily classwork and assignments from each teacher, which shall be reviewed and corrected by teachers on a weekly basis and returned to the student; and
 - b) Each principal shall assign a school staff person to be the liaison between the teachers and the various students on out-of-school suspension or expulsion and to communicate weekly about classwork assignments and school-related issues by phone or email with those out-of-school suspended/expelled students and their parents.
- 8) All students who receive short-term suspensions will be provided with:
- a) the opportunity to complete the academic work they miss during the suspension period without penalty; and
 - b) with their parents or guardians, with the contact information for a school employee who will be responsible for ensuring that the requirement for educational services is met.
 - c) All other aspects of the process for suspended students receiving missed assignments, completing missed assignments and making up tests shall be identical with each school's established policy and practice for makeup work in the event of any other excused absence.
- 9) A student who is suspended from school, other than one on in-school suspension, is not permitted on school grounds unless accompanied by a parent for a re-admission conference during the period of suspension.
- 10) Students who are suspended out-of-school may not participate in or attend extra-curricular activities during the date(s) of suspension.
- 11) All students who are suspended will be given a copy of the Community Resource Guide.
- c. Students who are in pre-kindergarten, kindergarten, first and second grade placements will not be suspended or expelled, with the exception of the federal requirement of a one year expulsion for an offense that meets the definition of possession of a firearm. A student may be suspended for up to five school days if the school administration, in consultation with a school psychologist or other mental health professional, determines that there is an imminent threat of serious harm to other students or staff that cannot be reduced or eliminated through interventions and supports.

In order to make a request for suspension of a student under this category, the school principal will follow the GCPS guidelines for requesting the school psychologist to conduct a threat assessment of the student and review

documentation of the tiered behavioral RTI interventions, including the implementation of a Behavior Intervention Plan. The school psychologist will consult with the Supervisor of Pupil Services (general education student) or the Supervisor of Special Education (special education student) prior to making the recommendation for suspension. If the suspension is recommended, the school principal will then request approval to suspend from the Director of Elementary.

The principal shall invoke an out-of-school suspension of 10 days and a recommendation for expulsion for any student (Pre-Kindergarten – 12th grade) in possession of a firearm (NCLB Act of 2001, Section 4141 ESEA; COMAR 13.A.08.01.12-1).

- d.** When suspension is deemed necessary, the following procedures shall be implemented:
- 1) The principal/building administrator will advise the student of the offense or allegation leveled against him/her, offer an explanation of the evidence, and permit the student to offer his/her side of the story.
 - a) A student whose presence poses a danger to self, others, or property or an ongoing threat of disrupting the academic process may be removed (suspended) immediately from the school. In such case, the necessary due process shall follow as soon as practicable.
 - b) In the case of a student with a disability, the principal/building administrator may immediately remove the student from the school under the condition that he/she will not exceed ten (10) days (per school year) for any violation of school rules to the same extent removal is applied to students without disabilities. A student with a disability may be removed from the student's current placement for more than ten (10) school days if the removal does not constitute a change in placement (as determined by the IEP team). The Supervisor of Special Education and the Supervisor of Pupil Services shall be notified before any student with a disability is suspended for more than ten (10) school days per school year. If a special education student carries a weapon, knowingly possesses or uses an illegal drug, sells or solicits the sale of a controlled substance, is thought to be a danger to self, or others, or property, the principal, in cooperation with the Office of Special Education and Department of Pupil Services, must gain permission from the parents or, as a last resort, request a due process hearing to seek removal of the student with a disability to an interim alternative educational setting for 45 days.
 - 2) The principal/building administrator will advise the parent/guardian and the student in writing of the reason(s) for the suspension, the length of suspension, and an appointment date for a private conference. Notification of the suspension shall be forwarded to the Department of Pupil Services.
 - 3) The principal/building administrator will readmit the student to the school program upon completion of the suspension, contingent on the requirements noted within d.1. of this section.

- 4) The principal may suspend a student in-school for no longer than ten days per school year, out-of-school no longer than 10 consecutive school days if meeting the requirements for long-term suspension, or in the case of a student with disability, no more than 10 school days per year.
 - 5) When dealing with the bringing/possession of firearms to school, the student will be asked to identify his/her source of firearms.
 - 6) The principal /building administrator shall institute the following steps prior to readmission to school when dealing with use/possession and/or distribution of alcohol/drugs:
The student will be asked to identify his/her source of the alcohol/drugs.
 - a) He/she may be asked to demonstrate via a medical certificate that he/she is free of any residual effect of the drug and that a doctor recommended that he/she be returned to school.
 - b) He/she will be referred to the MSAP team and will be required to complete an addictions assessment at the Garrett County Health Department. The student's parents will be asked for confirmation of an assessment or scheduled appointment and to comply with the recommendations of that assessment. Parents will be asked to sign a referral form and a release of information form to provide the school with the results and recommendations of the addictions assessment at the time of the suspension conference.
 - c) Students will be required to attend a drug education class and/or addictions counseling as provided by the Garrett County Health Department. The school administrator will provide the signed release form and referral form completed during the suspension conference to the Garrett County Health Department to initiate the intervention, and provide copies of the release and referral to the student's school counselor.
 - 7) If the school principal feels a suspension of longer than ten school days is necessary, he/she shall petition the Superintendent of Schools or his/her designee for an extension. (Annotated Code of Maryland 7-303).
 - 8) The principal may suspend the student for up to ten days and may request an extended suspension if the criteria for a request for an extended suspension are met (see 2. b.6.).
- e. The principal will remove the student from school, will suspend up to ten (10) days, and will recommend an expulsion to the Superintendent of Schools when any student commits a Level 5A offense (NCLB Act of 2001, Section 4141 ESEA; COMAR 13.A.08.01.12-1).

For other offenses indicated for expulsion under Responses to Disciplinary Offenses the principal may suspend up to ten (10) days and recommend expulsion when:

- 1) The superintendent or designated representative has determined that:
 - a) the student's return to school prior to the completion of the expulsion period would pose an imminent threat of serious harm to other students or staff; and
 - b) This is substantiated by the completion of a threat assessment by a school psychologist including a review of behavioral response to

intervention.

f. Special Education Students

- 1) Special Education policy requires that when a student with a disability is subject to a suspension(s) totaling more than ten (10) days and/or the removal constitutes a change in placement, the IEP Team shall meet within ten (10) business days of the removal to develop an assessment plan to conduct a functional behavior assessment, if one has not been completed. As soon as possible after the completion of the assessments determined appropriate by the IEP Team, the team shall meet to develop appropriate behavioral interventions to address the behavior and implement the behavioral intervention plan. If the student with a disability has a behavior intervention plan, the IEP Team shall meet within ten (10) business days of the removal to review and make modifications to the plan or its implementation to address the behavior.
- 2) Special education policy also requires that when a student has been removed for more than ten (10) school days or a request for expulsion, carries a weapon at school or a school function, knowingly possesses or uses an illegal drug while at school or a school function, or sells or solicits the sale of a controlled substance while at school or a school function, the IEP Team shall meet to determine whether a student's behavior that resulted in a disciplinary removal is a manifestation of the student's disability and the services that are to be provided during the removal.
- 3) In making its determination, the IEP Team shall consider all relevant information in relation to the behavior that resulted in the disciplinary action including: diagnostic results and evaluation, observations, information supplied by the parents, the student's IEP and the student's current educational placement. To determine the behavior subject to the disciplinary action is a manifestation of the student's disability, the IEP Team and other qualified personnel must make the determination that the student's behavior was: (1) caused by or had a direct and substantial relationship to the student's disability, or (2) the direct result of the public agency's failure to implement the student's IEP. If the IEP Team determines that the student's behavior is a manifestation of the student's disability, the IEP Team shall revise the student's IEP, revise the student's behavior intervention plan and review the student's placement to determine if it continues to be appropriate. If the IEP Team determines that the behavior is not a manifestation of the student's disability, the student may be disciplined in the same manner as students without disabilities, including a period of suspension or expulsion and the IEP Team shall determine the extent to which services are necessary during the period of suspension or expulsion to enable the student to appropriately progress in the general curriculum and advance toward achieving the goals of the student's IEP. The IEP Team will give the student's parents written notice of the IEP Team's determination and all applicable procedural safeguards. COMAR 13A.08.03.
- 4) If a student not previously identified as a student with a disability is suspended for more than ten (10) school days or expelled, and the school

system had knowledge that the student was a student with a disability before the student engaged in the behavior that precipitated the disciplinary action, the student immediately shall be referred to the IEP Team. The IEP Team shall initiate, within ten (10) days of the exclusion, an evaluation to determine whether the student is a student with a disability. If the student is determined to be a student with a disability, the requirements in (i) shall be met and the school shall promptly give the student's parents or guardians written notice of the IEP Team's determination and applicable procedural safeguards.

- 5) If the school system does not have knowledge that a student is a student with a disability prior to taking disciplinary action, the student may be subjected to the same disciplinary measures applied to students without disabilities who engage in comparable behaviors.
- 6) If the school system receives a written referral during the time period that the student is subject to disciplinary measures, the student shall be evaluated in an expedited manner. The student shall remain in the educational placement determined appropriate by school personnel, including suspension or expulsion without educational services, until the evaluation is completed. If as a result of the evaluation, the IEP Team determined the student is a student with a disability, the school system shall provide special education and related services.
- 7) A crime committed by a student with a disability shall be reported to appropriate law enforcement authorities. The school system shall ensure copies of the student's special education and disciplinary records are transmitted to the appropriate authorities to whom the crime was reported, to the extent permitted in accordance with COMAR 13A.08.02

g. 504 Students

If a student is determined to be a "student with a disability" under Section 504, any action taken with respect to the suspension or expulsion of that student shall conform to the following procedures:

- 1) When a student with a disability is subject to a suspension(s) totaling more than ten (10) days and/or the removal constitutes a change in placement, the IEP Team shall meet within ten (10) business days of the removal to develop an assessment plan to conduct a functional behavior assessment, if one has not already been completed. As soon as possible after the completion of the assessments determined appropriate by the IEP Team, the team shall meet to develop appropriate behavioral interventions to address the behavior and implement the behavior intervention plan. If the student with a disability has a behavior intervention plan, the IEP Team shall meet to review and make modifications to the plan or its implementation to address the behavior.
- 2) When a student with a disability has been removed for more than ten (10) school days or a request for expulsion, the IEP Team shall meet to determine whether a student's behavior that resulted in a disciplinary removal is a manifestation of the student's disability.

- 3) If the IEP Team determines that the student's behavior is a manifestation of the student's disability, the 504 Plan shall be revised.
- 4) If the IEP Team determines that the student's misconduct which prompted the disciplinary action was not a manifestation of the student's disability, the student may be disciplined in the same manner as similarly situated students without a disability.
- 5) Any student engaging in the illegal use of drugs or alcohol may be disciplined in the same manner as similarly situated students without disabilities for possession or use of illegal drugs or alcohol. In this situation, the special disciplinary procedures do not apply.
- 6) A student who is determined to be a student with a disability solely under Section 504 and brings a firearm to school shall be expelled for a minimum of one calendar year.

h. In-School Intervention Programs

Students may be assigned by the principal to attend an In-School Intervention Program, contingent on meeting those requirements. Students who have been placed on extended suspension or expelled by the Superintendent will be provided with comparable educational services and appropriate behavioral support services through an alternate intervention program. To provide for school safety, students who have been recommended for expulsion for a Level 5A offense and/or other serious and dangerous acts may not be eligible for an alternate intervention program within a school building. Assignments and placements of students with disabilities will be reviewed by the IEP team to insure that the goals, objectives and services are provided in accordance with students' 504 plans, the IEP and/or related requirements.

D. Disciplinary Action - Pupil Transportation

The purpose of the rules and regulations is primarily to provide a basic framework for safe transportation of pupils to and from school and for efficient operation of the Pupil Transportation Program. Responsibilities for enforcement of these rules are shared by the school bus contractor, the bus driver, the school administrator of the school, and the Transportation Office of the Garrett County Public Schools. Riding a school bus is a privilege. *"Don't Lose Your Riding Privilege!"*

FOLLOW THESE RULES POSTED IN ALL BUSES:

1. Obey the bus driver at all times.
2. Practice the same conduct as in the classroom.
3. Remain seated facing forward when the bus is in motion.
4. Keep feet, legs, and book bags out of the bus aisle.
5. Keep your hands to yourself.
6. Talk quietly. No screaming or yelling.
7. Sit in assigned seat when directed to do so by the driver/administrator.
8. Keep head, hands and feet inside the bus.
9. Be courteous, use no profane language.

10. Do not eat, drink or leave trash on the bus.
11. Do not smoke, use chewing tobacco, or E-cigarettes.
12. Do not be destructive.

Failure to comply with regulations may result in a revocation of this privilege.

1. Parents are responsible for the safety of their children from the time the children leave home in the morning until they board the school bus and at the end of the day when the children exit the bus. Parents of PreK and Kindergarten students are required to be at the bus stop on a daily basis. If they cannot, they must arrange for someone else, like a family member, babysitter, neighbor, etc., to be there, especially in the afternoon. Blatant neglect to do so will result in revocation of the school bus privilege.
2. The School Bus Contractor is expected to cooperate fully by impressing upon drivers employed by him/her the driver's responsibilities for supervision of pupils riding the bus, for maintaining effective cooperation and communications with the school administrator of the school and for carrying out the instructions received from the Transportation Office.
3. The School Bus Driver is expected to enforce regulations for pupil behavior while pupils' board, ride, and alight from the bus. If the driver is unable to enforce a rule, he/she should request assistance from the school administrator.
4. The school administrator should provide appropriate assistance and guidance to the school bus driver and the pupil when the pupil's behavior is not acceptable. When a pupil is not permitted to ride a school bus, the principal must notify the parent or guardian in writing of the pupil's infraction of the applicable rule. The school administrator should solicit full cooperation from the parent or guardian with the understanding that riding a school bus is a privilege which can be revoked for the remainder of the school year. It is the responsibility of the school administrator to refer to the Director of Transportation questions concerning bus stops and routings, as well as serious disciplinary problems needing his/her assistance.
5. The Transportation Office shall review annually with bus drivers these rules and the bus driver's responsibilities or enforcement in cooperation with the school administrator of the school.
6. The Pupil, or parent or guardian, must reimburse the owner of the school bus for the cost of repairing damage to the bus willfully caused by the pupil. The pupil's riding privilege may be revoked if reimbursement is not made. Before the privilege is revoked, the parent or guardian shall be notified by the Director of Transportation in writing that the privilege may be revoked for nonpayment.
7. Cameras may be used to provide surveillance of students while on the bus.
8. Levels of Disciplinary Action:

Level I:

Driver corrects student.

Level II:

If the student's actions deem it necessary, a discipline form is given to the school administrator to make the decision as to the course of disciplinary

action. At this time, the student will be given this form to take home to the parent. At Level II, the bus driver will refuse to transport the student until the discipline form is signed by the parent and is returned to the bus driver.

Level III:

If the student's misconduct persists and the behavior is such that the driver deems it necessary, he/she may request a meeting with the school administrator, student, and parents. The school administrator shall make the decision as to the course of disciplinary action. The school administrator may deny a student the privilege of riding the school bus for a period of time. The student or parent is responsible for furnishing transportation to school on the days this privilege is denied.

Level IV:

Conference between parents and the Director of Transportation. The Director has the authority for the final decision on handling the situation.

Level V:

Appeal to the Board of Education

E. Student Behavior Interventions (COMAR 13A.08.04) (Refer to Policy 445.0 and Procedure 445.1)

School personnel are encouraged to use an array of positive behavior interventions, strategies, and supports to increase or decrease targeted student behaviors. School personnel shall only use exclusion, restraint or seclusion after less restrictive or alternative approaches have been considered and attempted and determined to be inappropriate. These interventions can only be utilized in a humane, safe and effective manner, without intent to harm or create undue discomfort and consistent with known medical or psychological limitations and the student's behavior intervention plan. These interventions will be provided by school staff who has received training in crisis intervention that includes de-escalation strategies and approved physical intervention strategies. (COMAR 13A.08.04)

In the performance of their duties, teachers, administrators, and other staff of each public school in Garrett County shall take reasonable action to control acts of destruction of property, physical abuse, and vandalism. Reasonable force may be applied by the teacher, administrator, and/or other staff in restraining a student in an attempt to prevent harm to the student, himself/herself, or others. (Annotated Code of Maryland 7-307)

When reasonable attempts to control a student are not successful, and the student presents an immediate danger of harming themselves or others, the school administrator will contact and request a law enforcement officer to intervene to provide for school safety.

"Physical restraint" means the use of physical force, without the use of any device or

material, that restricts the free movement of all or a portion of a student's body. "Physical restraint" does not include: (1) Briefly holding a student to calm or comfort the student; (2) Holding a student's hand or arm to escort the student safely from one area to another; (3) Moving a disruptive student who is unwilling to leave the area if other methods such as counseling have been unsuccessful; or (4) Intervening in a fight in accordance with Education Article 7-307, Annotated Code of Maryland. (COMAR 13A.08.04)

F. Appeal for Extended Suspension or Expulsion (COMAR 13A.08.01.11)

1. At the request of the principal, the local superintendent or the designated representative may suspend a student for more than 10 school days, or expel the student.
2. Upon receipt of a written report from a principal requesting an extended suspension or expulsion, the local superintendent or designated representative promptly shall make a thorough investigation of the matter.
3. If after the investigation the local superintendent or designated representative finds that an extended suspension or an expulsion is warranted, the superintendent or designated representative promptly shall arrange a conference with the student or the student's parent or guardian.
4. The process shall be completed by the 10th day of the initial suspension. If additional time is necessary to complete the process, either because of delays due to parent or guardian unavailability or due to the complexity of the investigation, the student shall be allowed to return to school, unless the local superintendent or designated representative determines that the student's return to school would pose an imminent threat of serious harm to other students or staff.
 - a. If the student is not allowed to return to school after the 10th day, the superintendent or designee shall notify the student and the parent or guardian within 24 hours and provide the reasons for the delay in the process and the denial of reentry; and send a copy of the notice to the State Superintendent of Schools.
 - b. If after this conference the local superintendent or designated representative finds that an extended
 - c. suspension of more than 10 school days or an expulsion is warranted, the student or student's parent may:
 - 1) appeal to the local board within 10 days following the student's/parent's/guardian's receipt (as documented by certified mail) of the Superintendent's or the Superintendent's designee's written determination on the suspension or expulsion decision,
 - 2) be heard before the local board or its designated committee, and
 - 3) bring counsel and witnesses to the hearing
 - d. If an appeal is filed, the local board or its designated committee or hearing officer shall have 45 days from the date that the appeal was received to hear the appeal and issue a decision, as follows:
 - 1) This timeline period may be extended if the parent or guardian, or his/her representative requests additional time; and
 - 2) This timeline shall apply in the event that the local board elects to use a hearing examiner.

- 3) If due to extraordinary circumstances or unusual complexity of a particular appeal, the local board determines that it will be unable to hear an appeal and issue a decision within 45 days, it may petition the State Superintendent for an extension of time.
- e. The student or student's parent or guardian or representative
 - 1) Shall be provided the school's witness list and a copy of the documents that the school system will present at the hearing 5 days before the hearing; and
 - 2) May bring counsel and witnesses to the hearing
 - f. The appeal to the local board does not stay the decision of the county superintendent.
 - g. The decision of the board is final. (COMAR 13A.08.01.11, Policy 110 and Procedure 110.2).
 - 1) Unless a public hearing is requested by the parent or guardian of the student, a hearing shall be held out of the presence of all individuals except those whose presence is considered necessary or desirable by the board.

THE PRINCIPAL MAY, IN CASES OF EMERGENCY OR THE SERIOUSNESS OF THE SITUATION(S), ELIMINATE ANY OR ALL OF THE SUGGESTED STEPS BEFORE INVOKING A SUSPENSION AND/OR RECOMMENDATION FOR AN EXTENDED SUSPENSION OR EXPULSION.

G. Exclusion

The principal will exclude a student from school for failure to abide by the Health Regulations regarding immunizations, and other health related policies until compliance is met. (Absence Code 17)

VII. Student Meal Charge Policy (JQB)

Students will be allowed to charge a set number of meals based on grade (Elementary students 10 meals; secondary students 3 meals). After the allowed number of meals students will receive an alternate meal including a sandwich, fruit and milk. Regardless of outstanding balance, a child who has money to purchase a meal at the time of the meal service may purchase and receive a regular meal that day. Students eligible for reduced-priced lunches are required to pay the reduced-price amount at the time of the meal service to purchase a regular meal that day. Students currently approved for free meals will receive a meal regardless of previous balance. Students will be advised of their account balance by the cashier. Negative balance statements will be given to students weekly. Ala carte items will not be sold to students with a negative balance. Students will not be allowed to charge ala carte items. All other monies received by the school food & nutrition services will first be applied to amount owed before Ala carte items are available for sale. The parent or guardian of a student will remain responsible for the debt as their child progress from school to school.

After 8 days of alternative meals secondary students will no longer receive a meal until the bill is paid or he/she brings money for the meal that day.

Food and Nutrition Services staff will assist families with managing account balances as indicated above. Additionally, parents may receive regular updates on the status of their child's account balance by contacting their child's school cafeteria manager or Person in Charge, staff at the Food and Nutrition Services central office or through Garrett County Public Schools' website.

VIII. Homeless Students:

If you are, or believe that you may be in transition and qualify as homeless, please discuss your situation with a school official in your child's school or with the Department of Pupil Services to determine what services and arrangements are in the best interest of your child/children. This would include staying in their current school or attending the school closest to their current location. Transportation will be provided to the extent feasible with your current situation. Lack of required documentation for enrollment will not prevent the enrollment of homeless students. A homeless student has a right to all programs and services, including school meals, before and after school programs, transportation, special education and career and technology education. Pupil Services may be contacted at 301-334-8926.

XI. GRIEVANCE PROCESS

Each school shall develop a grievance process to deal with issues which are deemed to be a violation or misinterpretation of a local school policy or procedure. In cases whereby a student feels there has been a decision made or an action taken that has been a violation or a misinterpretation of any county policy or procedure, the student may seek redress of the decision. This grievance process does not include a decision made by school personnel unless it is a violation or misinterpretation of county policy. Students and parents who seek satisfactory resolution of their grievance must use the following steps:

Level I: A student with a grievance will discuss the problem directly with the person responsible for the decision which is in question. This discussion will take place within seven calendar days of the decision. Both parties have a responsibility to seek the counsel and advice of any and all resources that are available.

Level II: If the student is not satisfied with the decision at Level I, he/she may request that a conference be arranged between the students himself/ herself, his/her parents, and the person responsible. This conference must be held within fourteen calendar days of the Level I discussion. Level I and Level II may encompass 21 calendar days unless time lines are adjusted. In some cases Level I and Level II may not be appropriate and the grievance process may start at Level III.

Level III: In cases whereby a satisfactory resolution to the grievance has not been rendered, the student and his/her parents may continue the grievance procedure. They must request a conference with the principal or his/her designee and the person responsible for the decision and must file with the principal a written grievance within seven calendar days of the Level II conference. The written grievance shall include the resolution that the aggrieved person desires. The principal shall within seven calendar days of the Level III conference render a decision in writing.

Level IV: In case the aggrieved person is dissatisfied with the principal's decision, the written Level II grievance will be filed with the Superintendent of Schools within seven calendar days of the principal's formal reply. The Superintendent shall submit his/her recommendation in writing to the principal and the aggrieved person within fourteen calendar days.

Level V: In such cases whereby there has not been a satisfactory resolution to the decision, the aggrieved person may petition the Board of Education as outlined in Procedure BEEA (formerly 110.1).

Timelines may be adjusted as needed

Maintenance of Records

The principal is the official responsible for school records at your schools.

Review of Records

Records are reviewed at the end of the pupil's fifth, eighth and twelfth grade school year, prior to their transfer to another school, and upon withdrawal for any other reason.

Access to Records

Access to student's records is granted to parents, eligible students and to the professional staff of the Garrett County Public Schools who are directly involved with the educational process of the individual student in a teaching, guidance/counseling or consulting situation without a release of information being needed. It will be presumed that either parent of the student has authority to inspect and review the educational records of the student and receive school-related information. This includes the non-custodial parent, unless the school has been provided with evidence that there is a legally binding instrument that states otherwise. Except in cases where consent is not required by state or federal laws, other persons or agencies will need a signed (by parent, guardian or age of maturity student) and dated release of information form stating specifically what kind of information they seek and the purpose for which they are seeking that information. Records of "sole possession" (i.e.: personal notes) are not required to be released. Records will be released in compliance with a court order or subpoena, or as requested by an agency involved in a child abuse or juvenile justice investigation. A reasonable effort will be made to notify the parent or guardian in advance of disclosure as result of a court order or subpoena, unless the court order or subpoena specifically directs that the release is not to be disclosed. Requests for and disclosures of personal identifiable information to parties not exempted by State Bylaws will be logged in the student's records.

Challenging Contents of Records

Records can be amended or changed informally through mutual consent of the parties involved. If agreement cannot be reached informally, the parent(s) or eligible student has a right to a hearing to challenge the educational record(s) in question. Reasons for a change of record would address only information which is inaccurate, misleading, or otherwise in violation of the student's privacy rights. The student and/or parent concerning an alleged failure to comply with FERPA requirements.

Cost of Reproduced Copies

There will be no charge to the parents or eligible student for copies of school records being contested through the hearing process. In other cases, a fee will be charged.

Directory Information

Directory information is a student's name, address, telephone number, date and place of birth, major field of study, participation in officially recognized activities and sports, weight and height of members of athletic teams, dates of attendance, degrees and awards received, and the most recent previous educational agency or institution attended. Directory information can be released without parental or eligible student permission. A parent or guardian may refuse to permit personally identifiable information from being designated as directory information by informing the school in writing of this refusal within the first two weeks of the school year.

Notification of Native Language

If the primary or native language of the parents is other than English, the school will insure that the parent is notified, in the primary or native language, of the student records policy including the right of confidentiality of personally identifiable information.

Other Rights and Requirements

Other rights and requirements, not mentioned above, are set forth in the county policy regarding student educational records. For more detail, interpretation, review of the original policy, or a copy of said policy, please contact your local school or the Garrett County Public Schools, Pupil Services Office, 301-334-8939.

I have received a copy of the Garrett County Public Schools **2019-2020 Student Handbook**. The handbook was explained and I was given an opportunity to ask questions. I read and understand the attendance and discipline policy and procedures contained in the handbook and the consequences for all offenses. I understand that I may meet individually with my principal, assistant principal or their designee to discuss the handbook in more detail.

I have discussed the *Student Handbook* with my child. I have also reviewed the *Annual Notification of Parents' Rights*. The GCPS has also adopted the *School Health, Wellness and Student Nutrition Policy and Procedure (JLCC)* which may be accessed on the GCPS webpage.

I understand that I must provide written notice to my child's principal if I do not want my child's directory information to be released. This includes all records and information listed below.
