

Kindergarten Supply List

For Virtual Learning

Yough Glades Elementary

August 2020

1. Crayons
Crayola works best! 1 or 2 boxes should last through the first 9 weeks.
2. Pencils
One pack should be fine, or any pencils you have around the house
3. Scissors
one pair of small metal-blade child scissors. Keep them until we figure out how to teach cutting virtually!
4. Glue Sticks
Elmer's school glue sticks work best! A 6 pack should be fine for the first 9 weeks, as long as caps stay on!

As you probably noticed, this list has been shortened. We're starting with basics, so we can learn how to make virtual learning work for all of us. We appreciate you, and we're here for you!
